Pontarddulais Primary

Aims

Learning and Range of Skills

- To develop ambitious, capable learners who communicate effectively, build on and apply knowledge and work as a team.

Standards/Improving the school/CPD

- To provide staff with the skills to reflect on good practice and set high standards which enable children to become independent, lifelong learners.

Environment

- To provide a safe and secure environment in which a child can grow and become the best they can be.

Health and Physical

- To develop learners who understand the importance of healthy living, both physically and mentally, becoming confident individuals who show resilience and are able to build positive relationships.

Enterprising, Creative contributors

- To encourage resilient pupils who collaborate, communicate and confidently take risks in their learning to develop independent thinking.

Language

- To develop learners who effectively communicate bilingually, whilst confidently expressing their ideas and emotions.

Ethically informed citizens

- To develop confident individuals who have secure values, maintain positive relationships and show respect for their own and others' cultural diversity.
- To develop thinking classrooms where children are aware of their rights and responsibilities and understand how to be successful learners.
