Make 200

1 2 3 4 5 6 7 8 9

Choose four of these digits.
Each one must be different.
Put one digit in each box.

This makes two 2-digit numbers reading across and two 2-digit numbers reading down.
Add up all four of the numbers.

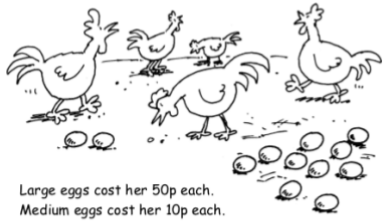
In this example the total is 100.

12 + 47 + 14 + 27 = 100

How many different ways of making 200 can you find?

Eggs

Mrs Choy spent exactly £10 on 100 eggs for her shop.



Large eggs cost her 50p each.
Medium eggs cost her 10p each.
Small eggs cost her 5p each.

For two of the sizes, she bought the same number of eggs.
How many of each size did she buy?

Humanities

This week we'd like you to pick 3 famous entertainers from Wales and write a mini biography about each of them. Your choices could be musicians, actors or TV presenters. Your biography should begin with an introduction where you must introduce the person and state what they are known for. Then you must present the rest of the information chronologically.

Try not to copy and paste information online. Instead try and put it into your own words. You can include picture if you wish.

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
