

Activity Instructions

Equipment needed:

- 1) Printed game for each player
- 2) Pencil for each player
- 3) 1 Dice
- 4) A prize for the winner!

Instructions:

(Minimum 2 players)

Each player must choose what they would like to draw from the list below:

Cow - One cow can produce over 3,000 litres of milk a year. The cow's manure is also an excellent fertiliser that can be used on the land, benefiting the entire farm.

Chicken - Chickens provide up to 200 eggs a year – a vital source of protein and income!

Keyhole garden – A keyhole garden allows a family to grow enough food for three meals a day - even in the face of an extreme climate and poor soil.

Tip-tap - A tip tap is a simple structure that allows families to wash their hands where there is no running water.

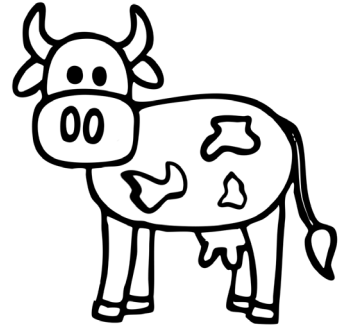

1. Players take turns to roll a die (youngest player goes first!)
2. Each number rolled is assigned to a different part of the drawing
3. Some parts can only be added if another part has already been rolled (see individual cards)
4. The first player to finish their drawing must shout 'Mooo!'
5. Each player then scores 1 point for each part drawn
6. The player with the highest score at the end of the 4 games is crowned the winner!
