Language Literacy and Communication 	<u>Persuasive Poster - Internet Safety</u> This Tuesday is Safer Internet Day. We would like you to create a poster with top tips for staying safe on-line. We would like you to create the poster using persuasive writing, to persuade young people to stay safe while surfing. In the Literacy resources folder, in the 'Home Learning' file on Teams, you will find an Internet Safety PowerPoint, with relevant information about staying safe on-line. Choose the information that you think is most important and relevant and include it in your poster. You will also find the success criteria, for writing a persuasive text, in the literacy folder, with some examples of how you could use the different elements of persuasive writing, in your poster, to make it successful. Please watch the video, before attempting the poster!
Health and Wellbeing 	<u>Compliment Cards - It's nice to be important, but it's more important to be nice!</u> Focusing on our Wellbeing this week, we would firstly like you to read the book 'How To Be Happy', which you can find in the Health & Wellbeing folder in this week's 'Home Learning' file on Teams. In the book, it gives you lots of top tips and strategies about being happy. The first top tip in the book is 'Be Kind and Friendly' and talks about how making other people happy, will also make YOU happy! With that in mind we would like you to create some 'Compliment Cards'. There is a resource in the Health and Wellbeing folder explaining exactly how to make these compliment cards and what to do with them once you've made them. Send us your completed Compliment Cards, so that we can see them, before you cut them out and use them on your family i.e. your parents, grandparents, guardian, siblings (brothers and sisters) etc. You might want to make some for your friends too and keep hold of them until you can see them safely again.

Expressive Arts

Challenge

Landscape Drawing - Dorian Spencer Davies

Dorian Spencer Davies is a Welsh artist, who specialises in drawing and painting landscapes. Most of the landscapes he creates are famous Welsh landscapes. Click on the link below to see lots of different examples of his work.

<https://www.dorianspencerdaviesart.com/shop/art-shop>

Below is a tutorial video of him creating a landscape using very simple lines and shapes to excellent effect. Using the same techniques as he uses and by following the video carefully, create your own landscape picture. You can replicate the landscape that is in the video or if you're feeling slightly more adventurous you can create your own landscape, while being sure to still use the same techniques that Dorian Spencer Davies is using in the tutorial. Davies' work is an excellent example of how simple sometimes art can be, whilst still being very effective!

https://www.youtube.com/watch?v=4Lei_XW8sas

We have also provided some Dorian Spencer Davies Colouring-In Landscape sheets for you to colour, if you want to. As well as giving you a further understanding of the aspects included in landscapes, they could also help with your wellbeing.

Science and Technology

Marble Run

Using simple household materials (see videos below), design a marble run, that takes 60 seconds or less for the marble to complete.

Have a look at the link below which explains what a 'Marble Run' is and how it works, then get creative making your own:

<https://youtu.be/IN0Wn0XgPXQ>

If you haven't got marbles, you can use any type of ball, a power ball, a golf ball, a squash ball, a tennis ball or even a football. However, the bigger the ball you use, the bigger your run will have to be, so think about the materials that you've got available to you. Record your marble (ball) doing its run and send the video to us.

The link below is an excellent example of a marble run that's been made by a child, using only every day household objects.

Mathematics and Numeracy 	<u>Mean, Median, Mode and Range</u> This week in Maths, we are looking at Mean, Median, Mode and Range. In the Maths resource pack, which is in the 'Home Learning' file on Teams, there are posters and a PowerPoint explaining what Mean, Median, Mode and Range are and exactly what you have to do to calculate and/or identify the Mean, Median, Mode and Range. Please watch the video and look through these resources before attempting the tasks so that you know what tasks to attempt and how to calculate and identify the Mean, Median, Mode and Range.
Humanities 	<u>The Seven Natural Wonders of the World</u> Undertake some research into all Seven of the Natural Wonders of the World: • Mount Everest • The Harbour of Rio De Janeiro • The Great Barrier Reef • Victoria Falls • Paricutin Volcano • The Grand Canyon • Aurora Borealis Once you have undertaken some research into all seven, choose one and create a fact file that includes all of the information that you consider to be relevant and important. Include as much detail as possible and also include labelled images to support the information that you've included.

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
