Tune in and complete his workouts. They will be live at 9am Monday, Wednesday and Friday. The workouts are suitable for the whole family so you don't have to complete it on your own!</p>                                                                                                                                                                                                                                                                                                                             |

## AOLE

### Expressive Arts

## Challenge

### Design a recycling logo

This week we are learning about which items of rubbish we can recycle. Can you design your own recycling logo? Label it, explaining your design. You may use the template provided and decorate that for example with recyclable items or create an entirely new design.

### Science and Technology

### What should I do with my rubbish?

Last week, you completed a litter hunt, what should have happened to that rubbish? Click on the link below to learn a little about ways that we can help to protect our environment and sort our waste. Read the powerpoint, to learn about which materials can be recycled and complete the recycling activity.

## AOLE

### Mathematics and Numeracy

### Subtracting by finding the difference

#### Task 1 and 2

We have solved many subtraction problems using different methods, now we are going to use a number line to help us solve the problems, by counting up and finding the difference between the numbers.

Please watch the video clip below and powerpoint tutorial before completing the worksheets. Complete as many as you can, you do not need to complete them all.

<https://www.bing.com/videos/search?q=Counting+Up+to+Subtract&adlt=strict&view=detail&mid=C9F83484E1AE81C8C628C9F83484E1AE81C8C628&&FORM=VRD&ru=%2Fvideos%2Fsearch%3Fq%3DCounting%2BUp%2Bto%2BSubtract%26FORM%3DRESTAB>

#### Task 3

Read the problems carefully, decide what operation is needed to solve the problem e.g. addition + or subtraction and select your preferred method for solving the problems. Show your workings out.

### Humanities

### Research Task - Climate Change and Global Warming

In the next couple of weeks, we will be completing a non-chronological report (fact file) about climate change and global warming. You need to carry out deeper research to help you with this. Gather information on the key factors that cause it, the effects we see as extreme weather and natural disasters - floods, heatwaves, bush fires, earthquakes, rising water levels (erosion) etc. Find out about local problems as well as worldwide. What can we do to slow it down?
