Rounding 1 Star Challenge

Can you round these numbers to the nearest 10? Look at the number line below to remind yourself of when to round up or down.

If the number ends in 0, 1, 2, 3 or 4 it rounds down to the last multiple of 10.

If the numbers ends in 5, 6, 7, 8 or 9 it rounds up to the next multiple of 10.

So, 18 would round up to 20.

24 would round down to 20.
