Home Learning

Use your Hwb account and associated programs to complete your work.
If you use Office 365 remember to share your work with your teacher. When using Just2Easy [J2e] remember to save your work for your teacher to see in your *my file* area.
We hope you enjoy completing the challenges, we can't wait to see the work you produce! Stay safe and take care – Mr Jones and Mrs Lockley.

Year Group: Year 4 **Rainforests – A Walk on the Wild Side** **Date: Monday 8th June**

AOLE	Challenges
Language Literacy and Communication 	★ ★★ ★★★ For this task, we would like you to write a **Tanka** poem based on an animal that is found in a rainforest. A **Tanka** poem is very similar to a **Haiku**, which you completed a couple of weeks ago. A Tanka poem has exactly the same number of syllables for the first three lines, but it adds another 2 lines at the end, each of which has 7 syllables. So basically, a Tanka poem is a Haiku with 2, 7 syllable lines added on the end. To write 1 verse of a Tanka poem, using the structure described above, about an animal found in a rainforest. To write 2 verses of a Haiku poem, using the structure described above, about an animal found in a rainforest. To write 3 verses of a Haiku poem, using the structure described above, about an animal found in a rainforest. <u>Tanka Poem Structure</u> Line 1 – 5 syllables Line 2 – 7 syllables Line 3 – 5 syllables Line 4 – 7 syllables Line 5 – 7 Syllables
Health and Wellbeing 	★ ★ ★ It's important that we learn new skills all the time and there is no better time than during lockdown to learn a new skill. I hear you all say, 'What skill can we learn today, Mr. Jones?'. I challenge you by Friday to learn how to… JUGGLE! To help you do this, click on the link below https://www.youtube.com/watch?v=kCt1bmSASCI Try and learn this new skill **outdoors** so you don't break your mother's favourite vase or break the 50-inch TV in the living room etc. Honestly, be careful and make sure you have a large space to work in. If you can, please make a video of yourself completing the task.

AOLE	Challenge
Expressive Arts 	Music can create all types of images and pictures. As we saw a couple of weeks ago with the piece of music 'Carnival of the animals', it can also make us think of different animals. Try the quiz below and answer as many correct as you can https://www.classicfm.com/lifestyle/quizzes/animal/ Your next task to create a sound or an instrument from things you can find around the house which can represent an animal. Perhaps you could record the sound and see if we can guess which animal you are trying to create. Good Luck!
Science and Technology 	The rainforests have some of the most beautiful, amazing plant life in the world. Look at the link below to see what type of plants grow in the rainforest: https://www.rainforestcruises.com/jungle-blog/coolest-plants-in-the-amazon I would like you to design and draw your own plant and tell me about it. You could answer the following questions to help you: • How long or how wide is it? • What weather conditions (rainfall, sunshine and temperature) do they need to grow? • What animals live on it. • What animals may eat it to survive? • Can the plant be used to make anything? Medicines? Materials for making things? Food or drink?

AOLE	Challenge
Mathematics and Numeracy 	This challenge is all about being systematic and trying to find a method of finding all the possible solutions. **Task - Half-Time Scores:** Wales and England have played a game of football and the score at full time (end of the game) was - Wales 4 – 2 England. Can you give me all the possible scores there may have been at half-time? Could the half time score have been Wales 4 – 3 England (NO) Could the half time score have been Wales 0 – 0 England (YES) ☆ Find as many half time scores as possible ☆☆ Find all the possible half time scores ☆☆☆ Find all the possible half time scores but show a method of how you know you have not left any scores out.
Humanities 	Rainforests are found in many countries in certain parts of the world, but they are losing square miles of forest every year. Look at the table in the link below: https://kids.mongabay.com/elementary/002.html ☆ List 10 countries in the world which have a rainforest. ☆☆ Fill in the table (the table is on the website) from the link above, finding out the number of square miles of rainforest (2018) in each country and the loss of square miles of rainforest (2001 – 18) for each of the following countries – **Republic of Congo, Cameroon, Malaysia, Vietnam** and **Laos.** Then, work out how much rainforest each country had in 2001 (Hint: The square miles of rainforest will have increased). ☆☆☆ Fill in the table (the table is on the website) from the link above, finding out the number of square miles of rainforest (2018) in each country and the loss of square miles of rainforest (2001 – 18) for any 8 countries found on the table. Then, work out how much rainforest each country had in 2001 (Hint: The square miles of rainforest will have increased).

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
