Home Learning

Continuing with our topic on the rainforests, use a workbook or your Hwb account and associated programs to complete your work. If you use Office 365, remember to share your work with your teacher. When using Just2Easy [J2e] remember to save your work for your teacher to see in your 'My File Area'.

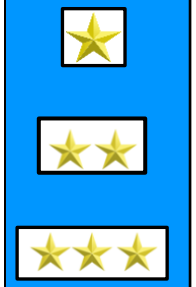

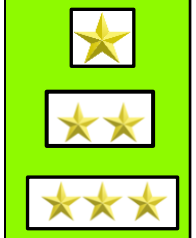

We hope you enjoy completing the challenges, we can't wait to see the work you produce! Stay safe and take care – Mr Jones and Mrs Lockley.

Take a look at Microsoft Teams on your Hwb account. You can use this to talk to your classmates and share completed work with each other. At the start of the week your teacher will write or send a video message to you all – remember to take a look!

Year Group & Topic: Year 4 – Rainforests: A Walk on the Wild Side **Date: 15/6/2020**

Language Literacy and Communication 	 In your shared files area in J2e is a short video of myself reading an extract from 'Journey to the River Sea' by Eva Ibbotson. It is a story about a young girl called Maia, who is beginning a new life with family she has never met, in the depths of the Amazon rainforest. Listen to the extract from the book, and choose to complete one of the following challenges; 1 star – draw a picture of what you have listened to (visualise) 2 star – draw a picture of what you have listened to (visualise) and summarise into a short paragraph 3 star – draw a picture of what you have listened to (visualise), summarise into a short paragraph, and make a prediction of what you think will happen in the story. You can create your picture however you wish. The summaries and predictions can be written out or typed up. This was one of my favourite books growing up, I hope you enjoy listening to the extract!
Health and Wellbeing 	 As we know, home workouts have been incredibly popular, and helpful in keeping us fit and healthy. Arguably, the king of home fitness has been Joe Wicks. Can you design your own Joe Wicks style workout video? You will need to think about what exercises to include, and how many times to repeat them. Think about who your video is going to be aimed at as well – children, adults or the whole family? Here are some links to different Joe Wicks videos, to give you an idea of which exercises to include: https://www.youtube.com/watch?v=6v-a_dpwhro&t=15s https://www.youtube.com/watch?v=v4ShRREe26w https://www.youtube.com/watch?v=o-ZCP91mjeE You can write your workout down however you wish.

AOLE	
Expressive Arts 	 Once you have come up with your workout routine, can you create the workout video? You can ask someone at home to record you or record yourself doing the routine. Remember to think about how you 'act' on the video – you need to be upbeat and encouraging your viewers to keep going and complete the workout, even if they are really tired! You can put the film together however you wish. Below is a link to help using Adobe Spark, but I know a lot of you have used other software to put your 'A day in the life of' videos together, so whatever you prefer to use. https://spark.adobe.com/video/sn20B3kbzMRbT/
Science and Technology 	 For this challenge, you are going to use Logo, which you can find on J2e under J2data. We have used it before in school but have a play around with it first to remind you. It is a programming tool that you can use to create images. In keeping with our rainforest theme, choose one of the following challenges to complete; 1 star – use Logo to create a simple pattern (spots, stripes) 2 star – use Logo to write your name 3 star – use Logo to create an image of a rainforest flower or animal It is up to you which level to use to complete the challenge. Remember to save your work as you go! Your file will save into your J2e area, which we will then be able to see.

AOLE	
Mathematics and Numeracy 	 Your challenge is to answer a mixture of maths questions, based on the lengths of famous rainforest rivers. The skills you may need to use are; rounding, ordering numbers, place value, addition and subtraction. 1 star – 1 star challenge sheet 2 star – 2 star challenge sheet 3 star – 3 star challenge sheet
Humanities 	 Rivers are an important part of rainforests, providing water for the thousands of plants and animals that live in them. For this challenge you will need to find out about the different rivers that are located in rainforests around the world. You will need to complete the sheet of the challenge level you wish to have a go at. 1 star – Match the rivers to their correct rainforest. 2 star – Fill in the table, including the name of the river, the rainforest it is found and its length. 3 star – Fill in the table, including the name of the river, the rainforest it is found, its length, the continent it is found in and the countries the river flows through.

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
