Maths and Numeracy 1 Star Challenge

Below are a list of rainforest rivers and their lengths. Your questions will be based on these numbers.

River	Length (KM)
Amazon	6400
Daintree	140
Kinabatangan	560
Tocantins	2250
Rio Coco	750
Mekong	4350

Have a go at these questions. Some are quite tricky, so do your best but don't worry if you can't do any!

1. Which river is the longest?
2. Which river is the shortest?
3. Can you put the rivers in order, from shortest to longest?
4. How many hundreds does the Amazon have?
5. How many tens does the Mekong have?
6. How many thousands does the Tocantins have?
7. Round the river Daintree to the nearest hundred.
8. Round the Rio Coco to the nearest hundred.
9. Round the Tocantins to the nearest thousand.
10. Round the Amazon to the nearest thousand.
