The population of Swansea is currently 330,000. Wales is a multicultural society made up of many different religions who live harmoniously together. If below was a breakdown of the different religions that existed in Swansea, could you use the data to calculate the number of followers of each religion in Swansea?

Religion	Percentage of population	Number of followers
Christianity	50%	
Hinduism	5%	
Islam	10%	
Other Religions	20%	
No Belief	15%	

Show your calculations in a Word document and upload it.
Can you now graph this data in J2e? Which type of graph will you use? Line or bar?
Use the actual number of followers for your graph, not the percentage.
Remember to start with 10% Year 6! What would 10% of 330,000 be? Use your Place value chart to help you
