Info-Cam

Introduction

This is the Info-Cam. It's the camera that tells you all about a specific person you take a picture of.

A Super invention! And a detailed explanation given

Firstly, you take a picture of one person who can be anyone.

Next the camera scans his/her face and gathers information.

After that, the information after appears on the screen telling you all about the person.

example:

Male
60yrs
Retired
No crimanal record
Phillip Green

Finally if you are maybe an undercover agent/ policeman you can arrest them or track them.

Please buy and tell your friends!
