

Examples of possible layouts for your 'Technology Timeline'

These are just examples of how you could 'layout' your Timelines. You obviously need to incorporate all the important technology advancements into your timelines and focus in on the 50's, 60's, 70's, 80's, 90's and 00's. You will also need an explanation of what the item is, as well as a picture and title.
