

Try and complete your challenges on J2E (or upload) as it automatically notifies your teacher once you have completed the task.
Remember that if you complete your challenges on OFFICE365 you must share them with your teacher or they will not be able to see your work.
Or if you don't have internet access then you can complete the tasks on paper and the worksheets provided.
Let us know on 'Teams' how your work is progressing and when you've uploaded it.

He's starting to get to know his fellow inmates and their personalities and quirky ways. Stanley has found it difficult being the 'new kid'. Luckily for him, there are new inmates arriving all the time. This week your challenge is to think about who this new inmate could be. You will have 3 tasks to complete before you write a character description about who <i>your</i> new inmate will be.</p> <p data-bbox="678 715 2045 962"> Task 1 – Read the character description on the powerpoint. As you can see it's...not very good. You need to look at the success criteria and re-write it with improvements. Task 2 – Create a 'Rap Sheet' for your new character giving key information such as name, date of birth, family, education, crimes committed. Task 3 - Role on the wall. Use the role on the wall to create a bank of vocabulary. Around the outside you can think of adjectives, similes and metaphors to describe his appearance. On the inside of the body you need to think of words and phrases to describe his personality. Task 4 - Holes Character Description. Write your character description using all the ideas you've accumulated from the tasks above. We expect to see your similes, metaphors etc. in your character description. </p>

Expressive Arts

Challenge

As we've stated, it's children's Mental Health Week and the theme is '**Express Yourself**'. For your challenge this week we'd like you to express yourself through photography. This links with your Health and Wellbeing challenge and we'd like you to focus on how you relax and calm yourself down when you are anxious or stressed. There are 3 photos we'd like to upload (you'll have to use a digital camera or your / your parents phones for this). We like you to also give brief explanation as to why you've taken this photo and how this place / object helps you. If you want to add effects to your photos i.e. black and white, sepia, different filters etc. The three photos should be:

- an outdoor place
- an indoor place
- something you do to calm down / relax (cooking, reading, running, yoga, dancing etc.)

Science and Technology

Coding – Create your own game

This week we would like you to use Scratch Online to create a game using a range of coding skills. There will be a video tutorial for you to follow. Once you have created your game, you will then be able to try and create a game of your own using the skills / features of Scratch that you've learnt. You should have been emailed your log ins.

Challenge

Fractions, Decimals and Percentages

This week we will be applying our knowledge and understanding of equivalent fraction and percentages to explore the relationship between fractions decimals and percentages. As ever, there will be a 1,2 and 3 star challenge for you to complete. Make sure you access the Loom videos to guide you through the challenge.

Religions at Camp Green Lake - Extension

Camp Green Lake in Texas has many inmates. Just like in society, there is a mixture of different religions and ethnicities living side by side.

There are **100** inmates at Camp Green Lake in total.

Your task is to use the information given to identify the number, fraction, decimal and % of the different religions in Camp Green Lake. **Remember there are only 100 inmates at Camp Green Lake.**

Where in Wales?

Ever wondered where places in Wales get their names from? A Welsh place name will usually describe its location. There are a small number of words that recur like Aber and Llan and appear frequently on the map of Wales.

***Can you identify 8 places that start with Aber, 8 places that start with Llan and 5 places that start with Pont? Write the meaning of each of these places names and plot them on a map of Wales with a key.

**Can you identify 5 places that start with Aber, 5 places that start with Llan and 3 places that start with Pont? Write the meaning of each of these places names and plot them on a map of Wales.

*Can you identify 3 places that start with Aber, 3 places that start with Llan and 1 place that starts with Pont? Write the meaning of each of these places names and plot them on a map of Wales.

A map of Wales has been uploaded but you could easily find your own blank map...

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
