

Money, Money, Money

As the ECS (Emergency Childcare Setting) has been run from the Year 6 classrooms our resources have been decimated! So we now need to replenish our resources before you arrive back.

Your challenge this week is to apply the skills (within number) you've been learning about over the past few weeks. You will need to purchase a range of different resources with the budget provided.

Differentiation

The 1,2 and 3 star challenges will have different numbers in them so start with the one you are most comfortable with and then work through them.

We will work through an example on this video.
