

Pontarddulais Primary School

Home Learning

We will give you challenges based on this new topic, but all of the challenges will use skills that have already been taught to you in school. Use a workbook or your Hwb account and associated programs to complete your work. If you use Office 365, remember to share your work with your teacher. When using Just2Easy [J2e] remember to save your work for your teacher to see in your 'My File Area'.

We hope you enjoy completing the challenges, we can't wait to see the work you produce! Stay safe and take care – Mr Jones and Mrs Lockley.

Year Group: Year 4

AOLE	
Language Literacy and Communication	We would like you to write a narrative story with the title 'The missing key'. Your story must have a beginning, a problem, a resolution and an ending. Try and include as many of the following success criteria in your story as possible: • Capital letters and full stops - remember when to use capital letters in the correct places and do not make your sentences too long. • Descriptive language – try and describe the characters you write about and the describe the setting • 'WOW' words - try and use interesting, descriptive words. • Paragraphs - remember when starting a new paragraph to come in from the margin. • Correctly written sentences - always re-read everything you write, to make sure that it makes sense.
	
Health and Wellbeing	Complete a 'Healthy Me' diary for the week. You will have to write down what you eat and drink every day during each meal, including the number of portions of fruit and vegetables, how many minutes of exercise you complete, and how many hours of sleep you have had. You can fill out the sheet that has been uploaded into your shared area on J2e.
	

AOLE

Expressive Arts

Henry VIII had 6 wives. We would like you to draw, paint, use collage materials or any other method of art to recreate portraits of 1 or more of his wives.

Science and Technology

Go on a hunt in the garden to see what animals you can find. Create a tally of them, say if they are found in dry or wet places, in high or low places or in dark or light places. Use this data to create a bar chart on JiT. (Use this data to create a database on J2data)

AOLE	
Mathematics and Numeracy 	This year we have worked on the column addition and subtraction methods. Use this method to complete the sheet of sums that has been uploaded into your J2e shared file area. The questions have been set in a different way so you will need to place them in a column, making sure that each sum is set out correctly.
Humanities 	Create your own three course Tudor menu; a starter, main and dessert that will be served for Henry VIII and his court. Research what kinds of food and drink rich people would have had at the palace. Create a menu with your chosen food and drink on – remember to make your menu design fancy enough for a king!

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
