

Home Learning

We will give you challenges based on this new topic, but all of the challenges will use skills that have already been taught to you in school. Use a workbook or your Hwb account and associated programs to complete your work. If you use Office 365, remember to share your work with your teacher. When using Just2Easy [J2e] remember to save your work for your teacher to see in your 'My File Area'.

We hope you enjoy completing the challenges, we can't wait to see the work you produce! Stay safe and take care – Mr Jones and Mrs Duquemin.

Year Group: Year 4

AOLE	
Language Literacy and Communication	For literacy this week, we would like you to write a short recount of your Christmas Day. Tell us everything you did from waking up in the morning, to opening your presents, to your Christmas dinner etc. Remember to include: • Time connectives • Past tense • Adjectives • Detail
	It's the start of a new year. What New Year's resolutions will you make? We would like you to set yourself 4 resolutions that you will achieve by the end of Year 4. Consider... • How will you be a better learner this term? • How you will be helpful and show kindness to your family? • How you will keep fit and healthy (activities and healthy eating)? • Will you take up and challenge yourself with a new hobby?
Health and Wellbeing	
	

AOLE

Expressive Arts

We would like you to create a self-portrait. You could use a mirror to help you. You can use any materials you wish – collage, sketch with a pencil, paints etc. Before you start, think about the following:

- The shape of your face
- Where your eyes, nose and mouth are
- Do you have any special features?
- Colour and tone of your skin/eyes/hair

Science and Technology

The weather forecast for the next week is set to be very cold. We would like you to fill a plastic container with water and place it in the garden overnight. What do you think will happen? Can you make a prediction? What happens to it during the daytime? Can you explain why this has happened?

AOLE

Mathematics and Numeracy

We started a topic on perimeter just before Christmas. We would like you to measure the shapes on the PDF worksheet (found on the school website and in the class materials folder in Teams) with a ruler and find the perimeter of each shape in cm. Remember, we find the perimeter of a shape by adding the lengths of each of its sides together.

Humanities

Countries around the world celebrate and bring in the New Year at different times depending on where they are situated in the world. We would like you to research and then put in order from earliest to latest the following countries:

Wales New Zealand China USA Germany Australia India

Russia South Africa Greece Argentina

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
