

Try and complete your challenges on J2E as it automatically notifies your teacher once you have completed the task. Remember that if you complete your challenges on OFFICE365 you must share them with your teacher or they will not be able to see your work.

Your 'Maths' answers will be put on the website every Friday.

Year Group: Year 6

Topic: Enterprise/Financial Literacy

Date: 08.06.2020

<p>Language Literacy and Communication</p> 	<p>Reading: Read regularly (a range of fiction and non-fiction books) and comment in your Reading diaries.</p> <p>You have 2 writing challenges this week. One can be found in the Health & Well-being challenge box. One is as follows:</p> <p>This one links to your 'Technology' challenge. At this time of year in Year 6, we normally design and make 'GAMES' for the 'June Fayre' in school. These 'GAMES' are always made out of recyclable materials and they have a specific audience in mind: Foundation phase children and children from KS2. That's not to say that adults and teenagers don't enjoy them too!</p> <p>Your Language task is to write instructions for your game. Remember to use 'TIME CONNECTIVES' (First, Secondly, After that...) or 'IMPERATIVE VERBS' (Place, Roll, Throw...) at the beginning of each instruction.</p> <p>Your instructions need to be very clear and sequenced chronologically. We are hoping that we will have a chance to bring these games in and play them before the end of term back in school.</p>
<p>Health and Wellbeing</p> 	<p>Health and Wellbeing Continuing with our Financial Literacy topic, your Health & Well-being challenge is to write a passage discussing the topic 'Does money buy you happiness?'</p> <p>3 star: You will need to write it using 4 paragraphs.</p> <p>1st paragraph: Introduce the topic, give a context.</p> <p>2nd paragraph: Give one side of the discussion – 'Yes it does'; you'll need to back up your point of view with arguments FOR.</p> <p>3rd paragraph: Give the other side of the argument – 'No it doesn't'; you'll need to back up your point of view with arguments AGAINST.</p> <p>4th paragraph: In conclusion – sum up and say what YOU think.</p> <p>2 star: Write a paragraph showing both sides of the discussion and say what you think</p> <p>1 star: Write 3 reasons why money can buy you happiness and 3 reasons why it cannot</p> <p>Assemblies are a very important part of H&WB. We will be posting a link each week, so that it will give you a 'Pause for thought' and allow you to reflect on different issues and challenges at this time. Have a look, pause for thought and tell us what you think on 'TEAMS'. https://www.assemblies.org.uk/pri/3557/pause-for-thought-lockdown</p>

<p data-bbox="241 236 479 272">Expressive Arts</p> 	<div data-bbox="680 368 763 612">  </div> <div data-bbox="831 309 2056 740"> <p data-bbox="831 309 1010 341">Creative Arts</p> <p data-bbox="831 349 2056 544">This week as part of your Expressive Arts Challenge we would like to use your artistic skills to create a still life piece of artwork. Choose two objects from your home. One must be an object that is essential, a need. The other must be a luxury and therefore, something that is non-essential. You can choose from a range of media. You may wish to paint your objects or draw them in pencil. You could even create your artwork as a collage.</p> <p data-bbox="831 584 1966 620">Have a look at the Power point presentation on the website – it will give you some tips.</p> </div>

Mathematics and Numeracy

Challenge

Your Maths challenge this week links to Savings accounts and interest rates. Have a look at Lloyds, Barclays, Halifax and Nationwide 'Savings account' interest rates. Where would you put your money if you had a substantial amount to save?

Look at the 3 star sheet and calculate how much money you will make based on the interest rates given on the amount being saved.

There's an EXTENSION 3 star sheet with calculator work for you budding 'Savers' to complete too.

Your Savings account gives you a 5% interest rate. Look at the 2 star sheet and calculate how much money you will make over the 5 years, based on the amount given.

You're very lucky. Your Savings account has a 10% interest return on your money. Look at the 1 star sheet, calculate how much money you will make over 3 years.

Humanities

Humanities

This week our Humanities Challenge has a historical focus. The use of money has changed a lot throughout history. From exchanging objects like spices, to using metallic coins, to 20th century where we use plastic cards to pay for goods. We'd like you to see if you can create a timeline of the changes to money and how it is used.

3 star – a chronological timeline with relevant dates and information provided. On your timeline, we'd also like to research and include what the predictions are for the future of money and how its use is likely to change in the 21st century.

2 star – a chronological timeline with relevant dates and information provided.

1 star – a chronological timeline with the relevant dates provided.

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.
