Pontarddulais Primary School
Remote Learning- Summer Term 2020
Week/;, 12- Minibeasts

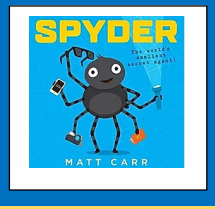

Minibeasts

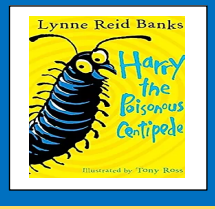

Let's get dirty, dig in the soil and have some fun!
Here are some books you can read/ watch on YouTube to start your weeks work.

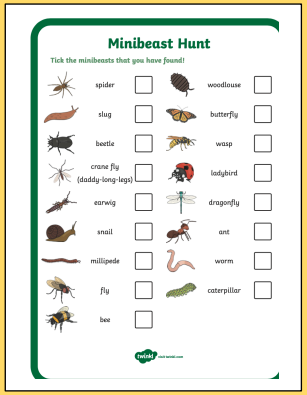

Activity 1- Bug Hunt

Can you start this work by going on a very special bug hunt?
I have uploaded a bug hunt sheet on the school website, can you find as many mini-beasts as you can? When you have found one, remember to tick it off. I hope you have as much fun as Jac had!

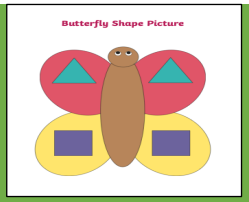

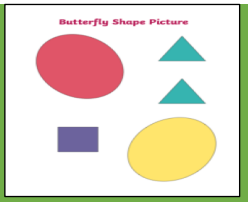

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.

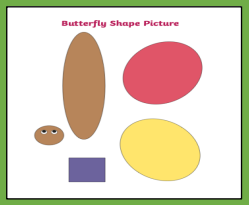

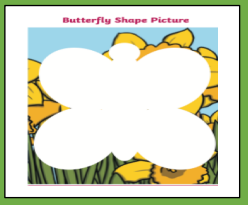

Activity 2- 2D shapes

Can you put the minibeasts back together using the different 2D shapes? On the school website I have uploaded shape minibeasts, your child's job is to put these minibeast back together again. When completing the task, ask your child to name the shapes and count how many sides each shape has.

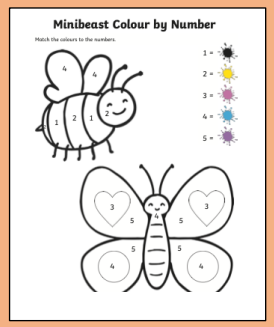

Activity 3-Number recognition and coloring

Can you paint by numbers? To complete this activity, your job is to find all the matching numbers and colour them the correct colour. Use the key at the side to help you. I would love to see these pictures on twitter.

Activity 4 – Bug Ball

Can you learn the Ugly Bug Ball song? You can find it on YouTube or our school website.

During your bug ball you could move like a minibeast, make masks/ dress up like a minibeast, make minibeast crafts, eat party food that looks like different bugs, eat green spaghetti that looks like grass, play with minibeast toys, make homes for minibeasts or even watch some 'Minibeast adventured with Jess.
