Pontarddulais Primary School
Remote Learning- Week 10- The Rainbow Fish
Nursery Class

The most beautiful fish in the ocean is asked to share one of his shining scales with a little blue fish, and to which he refuses. All the other fish in the sea leave him alone, and he wondered why. He goes to the wise octopus for advice, and she tells him to give away his scales. Rainbow Fish reluctantly does so, except for one. In the end, he is less beautiful then he was before, but he has new friends and is now the happiest fish in the sea.

Activity 1- arts and crafts

Can you make a beautiful fish? You could do this by drawing, painting, cutting and sticking, using playdough or junk modelling. If you are struggling for ideas, why not look on pintrest?

Article 6: All children and young people have the right to survive and the right to develop.

Activity 2- Using adverts

Once you have made your fish, can you think of words to describe your fish? Ask an adult to write the words around your fish. Why not have a go at writing yourself? (squiggles and marks on the paper should be encouraged too, this is called emergent writing)

Activity 3- Cosmic Yoga

https://www.youtube.com/watch?v=0hvwLdk5D5g

I hope you enjoy taking part in this cosmic yoga under the sea session. It is a great way to develop concentration and core body strength as well as keeping fit and having fun. We take part in yoga sessions to develop body strength which is important to help with body control and fine motor control that help with writing.

Activity 4- Adding scales to your fish

Please cut and make 10 fish, write a number on each fish and ask children to add that number of scales/ spots on each fish. As an extension, the adults could add the spots and ask the children to count and write the number on the fish.
