Pontarddulais Primary School

Remote Learning- Week 9-The Very Hungry Caterpillar/ Y Lindysyn Llwglyd Iawn

Nursery Class

Activity 1 -Read the story and taste test

Read the story The Very Hungry Caterpillar together. If you don't have the story at home then you can watch it on You Tube

https://www.youtube.com/watch?v=75NQK-Sm1YY

The Very Hungry Caterpillar loves trying lots of new foods. Could you choose some foods from the story to try at home? You could include them within your normal meals, or you could do a taste test. You close your eyes and guess what the new foods are you are tasting. Then give your mum's and dad's a thumbs up or thumbs down to let them know if you liked it.

Activity 2- Symmetry

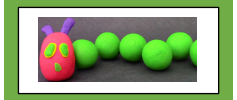

The Very Hungry Caterpillar turns into a beautiful butterfly. Could you draw a butterfly shape on to paper or card, cut it out, then fold it in half. Paint one half of your butterfly then fold it over and push down really hard. This will make your butterfly the same on both sides, symmetrical. Use as many colours as you'd like. We can't wait to see them!

Article 6: All children and young people have the right to survive and the right to develop.

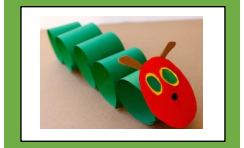

Activity 3- Let's get creative

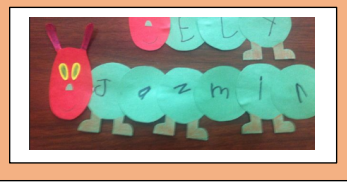

Could you get creative and make your own caterpillar? You could make some play dough to make the caterpillar (I'll attach a recipe for you to make at home.) You could paint a picture using handprints, draw a picture or make the caterpillar using egg boxes. Remember to take a photo and upload it to our twitter page.

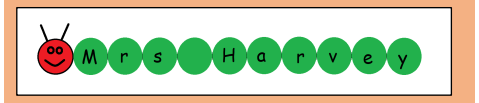

Activity 4- Caterpillar name writing

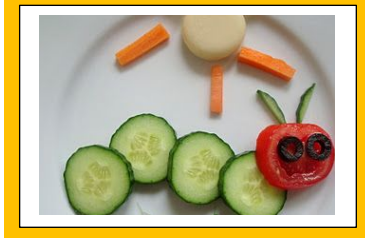

It is so important for us to practice writing our names, and practice using scissors correctly. Could you cut out some circles from paper or card and write each letter of your name on a circle. Cut out the caterpillar's head too, then order the circles to spell your name correctly.

Activity 5- Cooking/Coginio

I know that lots of you have been enjoying cooking activities so I wonder if you could make the Hungry Caterpillar using different foods. There are so many different ways to do this, so have a look at the pictures I've added, or if you have an idea of your own, we'd love to see them. Please upload a picture to our twitter.
