Remote Learning- Week 3 Happiness
Nursery Class

Happiness

This week's work is going to be set around the theme of happiness. We can't wait to see all your happy smiling faces again when school starts and we all miss you so very much. Here are some of our happy photos.

I would love to see your work on our closed twitter page @BontNursery

Activity 1- Language, Literacy and Communication

Talk about things that make the children happy. Choose photographs from home that show them happy. Write simple sentences together, about the photographs to describe what is happening and explain why they felt happy.

Article 28: You have the right to a good quality education and your education should help you use and develop your talents and abilities.

Activity 2- Personal and Social Development

Set up a role play area to act out a wedding, a birthday party, a christening or a tea party. In our house we used a tent, gathered our teddies, found books, a tea set and had a Teddy Bears picnic that made us all very happy. We also watched our wedding video and pretended to have a wedding.

Activity 3- Creative Development

Make happy faces to decorate your bedroom

Encourage your children to make happy faces using different resources. Children could use:

- Paint
- Pencil
- Crayon
- Chalks
- Playdough
- nature

Activity 4- Mathematical Development

What is missing?

Using the numicon shapes from week 1, together with your child put the shapes in order. Ask your child to look away, while you remove one of the shapes, leaving a gap. Your child has to fill the gap and say what shape is missing.
