AOLE	Challenge
Mathematics and Numeracy	

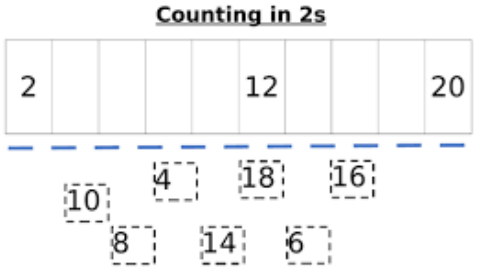

- After reading the story Dinosaurs love underpants – look at the different types of underpants to see if you can find any with symmetrical patterns.
- How many pants with symmetrical patterns can you find?
- Make a pair of symmetrical underpants – this means the pattern needs to be the same on both sides of the pants - you can make this easier for yourselves by drawing a line down the middle of the pants first and making a pattern on one side first then copying it on the other side second. Remember to make sure the colours are the same too.

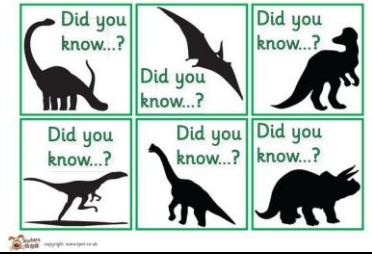

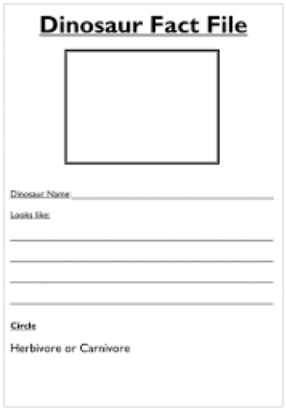

- Remember to keep practising counting in 2's up to 20 every day. This will only take a few minutes.

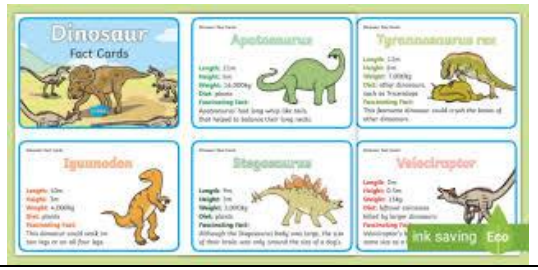

Humanities	

- Can you find out some facts about dinosaur's?
- You can either share these facts by writing them in sentences or record yourself saying them.

Remember – We would love to see your work via Hwb. You can upload pictures and videos to your Hwb too. Please share your work with us.

We really enjoyed looking at your challenges last week, you are working super hard.

Keep at it! Love from Mrs Powell, Mrs John and Miss Williams ☺
