Profit Challenge

This week as part of your Maths Challenge we'd like you to price up the costs of running a food stall for a school fayre and work out what profit you could make.

These are the items you will be selling:

	Cost of one pack	How many packs do you need?
Warburtons hot dog rolls (6 pack)	£1.50	10
Herta Classic Frankfurter Hot Dogs 10 Pack 350G	£3.00	6
Birdseye 4 original beef quarter pounders 454G	£4.00	12
Warburtons White Sliced Sandwich Rolls 12 Pack	£2.00	4
Heinz Tomato Ketchup 570g	£2.00	4
French's American Classic Yellow Mustard 226G	£1.50	4

1. Work out the **total cost** to purchase all the goods for your food stall.

2. If you sell all of your burgers and hot dogs for a total of **£350**. How much profit will you make?

Remember, your profit is what you have left over after you have paid for the food.
